An act to amend Section 17071.35 of the Education Code, relating to school construction.

LEGISLATIVE COUNSEL'S DIGEST

SB 1176, as introduced, Hollingsworth. Education: school construction.

Existing law requires that the maximum school building capacity for each school district applying for school construction funding be increased on a districtwide or attendance area basis by the number of pupils in excess of capacity certified by the school district as reported by the Superintendent of Public Instruction for each grade level.

This bill would make a technical, nonsubstantive change to these provisions.

The people of the State of California do enact as follows:
